

Library App Setup

Goals for Today

- A. Create a folder titled “Library”
a. Drag these apps into the library folder:

- Discover
- Flipster
- Overdrive
- Linkcat

- B. Setting up library apps:

1. Discover

- Search first by state then by school name
- Login using your Google account information
- Check “Remember me on this device”
- Search the catalog for books, eBooks, audiobooks, and do research

2. Library Website

- Create a shortcut to the homepage and drag it into the library folder

3. [Flipster](#) - from the library website you do not need credentials

- Username = indianmound
- Password = library
- You can add the HS magazines too as well as the public library
- HS Username = s6242779 Password= password

C. Add these shortcuts to your home screen - then drop them in your library folder:

1. [District Website](#) and [Library Media Services page](#)
2. [Library Website](#) - all resources and passwords are found here
3. [Tumblebooks Cloud](#) - eBook resource
 - if you are asked for a username and password
 - i. Username = indianmound
 - ii. Password = login

D. Overdrive App - eBooks and Audiobooks

- for those who have a public library card
- Log in using your public library card number
- Add to the library folder
