Dear Parents:

Your child was recently given a vision screening test at school using a **(Pluoptix camera/SLOAN vision chart)**. This was a check for possible vision problems and *NOT* a complete eye exam or diagnosis. It showed that they may have some difficulties with vision which would require follow up with an eye doctor. Children who already wear glasses were tested only with glasses on.

Your child was screened with the following results: **PASS / FAIL**  
Your child **was/was not** wearing their prescription glasses/contacts.

A complete eye exam is recommended. Please take this letter with you when you have your child's eyes examined. *Page 2* of this letter should be completed and returned to your child's school health office.

- Private Vision Insurance: Contact your plan to find an eye doctor.
- BadgerCare Plus HMO: contact member services 800-362-3002 for a list of eye doctors under your plan.
- See *page 3* for additional resources

If your child was recently examined or is currently under treatment of vision problems, please comment in the space provided below and return the form to your child's school health office.
